

# Worship

at Severna Park Evangelical Presbyterian Church

An introduction to worship at SPEP:

At Severna Park EP Church, we understand worship to be both from God and to God. Jesus Christ, the author and perfecter of our faith, leads us into worship of the Almighty God by His Holy Spirit. And through Him we know the kindness of God which leads us to repentance not just once, but continually.

So worship is our response to God's sovereign grace that's made manifest to us in Jesus Christ. It's His call to us to be His people, to know Him, to enter into communion with Him, and to have deep fellowship with each other. Our participation with Him is like a dance that He leads and, when we are united with Him in it, we become more and more the people He intends us to be.

Worship services at SPEP are thoughtful, lightly liturgical, and energetic. They are filled with joyful, heartfelt prayers, preaching, and music that incorporates traditional hymns, modern worship songs, and a few wonderful things in between. We are theologically reformed and celebrate a breadth of church tradition in practice. Always, God's holy word drives us. Always, we look with hope to the One to whom the Church belongs: Jesus Christ our Lord.
