## **Worship Philosophy**

Worship is our response to God for who He is and what He has done for us in Christ. It is an offering of our whole selves to God, giving of our emotions, thoughts, and actions. As a community of people seeking to embody the gospel through worship, Village Church of East Atlanta will worship the Lord through dialogical liturgy and music that is congruent with the personality and vernacular of our community; with the understanding that the musical portion is only one part of worship, not bound by preference, but empowered by the Spirit and shaped according to the Word of God.

Worship at Village Church of East Atlanta reflects the following values:

### *Gospel:*

- The Gospel should be communicated and demonstrated through our worship.

### *Community:*

- Worship should look and sound like the character of the community; Inclusive of the various personalities that meet as one in the person of Christ.

### *Neighborhood:*

- Worship should meet the culture with an honest familiarity, not shaped by culture, but not exclusive of it either. We should be a people who remain open, loving, and inclusive of others while holding to Scriptural standards.

### *Justice:*

- Justice in the worship service includes our own personal renewal and reconciliation with God as well as the coming together of diverse ethnicities and cultures under one Lord.

### *Imitation of Christ:*

- We come to worship in humility as those who are receiving mercy; not to give as those who are righteous, but as those who have need of being saved. God serves us in our need to worship Him.
