

Job Opening: Chemistry and Earth Science
Evangelical Christian Academy
Updated: October 13, 2020

Job Title: Chemistry and Earth Science Instructor

Application Deadline (unless extended):
November 20, 2020

Job Description: Implement a program of Classical Christian logic and rhetoric level instruction that meets the established ECA curriculum criteria, individual needs, interests, and abilities of students. This teacher must also have a willingness to do other duties as assigned by the Principal.

- Job Qualifications: Candidate must possess a bachelor's degree or higher in education (or related field) from an accredited college or university or a degree in science and successful classroom experience. Teacher will be certified (or certifiable) through ACSI or ACCS. Applicant must be in agreement with the ECA Statement of Faith. Biblically integrated and classical teaching experience in our vacant grade is highly desirable. Expertise in Love and Logic (or similar) classroom management, Promethean ActivBoard (or similar), and RenWeb school management software (or similar) is considered a plus. Principal will describe actual classroom and preparation schedule requirements associated with the school year. Must be able to work cooperatively with all members of the staff and communicate effectively with parents and students. All applicants must be US citizens or possess a valid US working visa. Finalists must pass a background check.

Position Details:

This is a Part-time teaching position reporting to the ECA JH (Earth Science) and High School (Chemistry) Principal. This position will be filled for the second semester beginning January 1, 2021

Interested Candidates should:

E-mail: 1) a cover letter and
 2) current resume to ECA High School Principal: Bob DeRuiter at
 bderuiter@ecaeagles.org

Complete Application: Finalists for this position will be invited to complete the full Evangelical Christian Academy application found at: <http://www.ecaeagles.org/about/employment-opportunities/>
