

Lead a College/Career Ministry

Panama, Panama City, Longer, Americas - Central

OPPORTUNITY DETAILS

Do you like discipling college students and young adults? Our team in Panama started a church plant near the University of Panama, and it's growing. Many of the church attendees are 18–30 years old and they're in need of someone to lead a college/career ministry with this age group. Leadership and mentoring gifts would be important skills for this role.

Panama is recognized as a worldwide center for commercial and financial trade, literally located at the crossroads of the seas. The church plant reflects this: it's an interesting mix of Venezuelans, Colombians, Mexicans, and locals from Panama. What better place to make disciples of all nations?
