Charitable Number: 82416 2788

Resurrection Church is interested in hiring an Assistant Pastor or a Pastoral/Church Planting Resident.

The goal is to help Resurrection Church shepherd its own people and resources well while also planning for church planting and multiplication in the future.

The difference between an Assistant Pastor and a Resident is the Assistant Pastor is already ordained or ready to be ordained in the PCA. He will have completed all seminary training, internships and other forms of preparation and is ready to serve as a pastor right away. A Resident is someone in process. Some residents have finished seminary, others are working through it. A residency is time to explore different opportunities, gain ministry skills and seek a more specific calling to church planting or pastoring.

The Assistant Pastor role is a fully funded position and the residency can be fully funded or partially funded based on the situation of the applicant.

Resurrection Church has a strong track record of developing residents, interns and assistant pastors and we hope the Lord will lead the right man to this role.

There are many more details including salary on the attached job description.
