

# Campus Ministry in Madrid

Europe, Spain, Madrid, 1-11 Months, Longer

---

Do you like hanging out with university students and getting them into gospel conversations? Come join our team in Madrid and help us start an RUF-Global ministry!

Spain is the least evangelized Spanish-speaking country in the world. Although it is traditionally Catholic, very few people attend church or believe foundational Christian doctrines. However, young people are more open to spiritual conversations than older generations. And with 300,000 students in the area, there is great opportunity. Our vision is to establish a central ministry in Madrid and then expand to other campuses across Spain.
