Is SearchWP auto-updating to a version which breaks on my site?
Summary
Is SearchWP auto-updating to a version which breaks on my site?
Describe the issue you are experiencing in as much detail as possible
Hi,
I set down gradient my plugins to this:
SearchWP: 4.1.13
SearchWP Live Ajax Search: 1.6.1
We updated our site to latest & incompatible. For some reason the latest plugins slow my system to a halt and I get 502 errors. Here is what the system looks like when I experience the error:
WordPress version 6.6
Current theme: RUF 2020 (version 1.0.0)
Current plugin: SearchWP (version 4.1.13)
PHP version 7.4.33
Error Details
=============
An error of type E_COMPILE_ERROR was caused in line 120 of the file /nas/content/live/rufprep/wp-content/plugins/searchwp/index.php. Error message: require_once(): Failed opening required '/nas/content/live/rufprep/wp-content/plugins/searchwp/lib/vendor/scoper-autoload.php' (include_path='.:/usr/share/pear:/usr/share/php:/var/cache/php')
Please advise. Thanks,
Joe
