

Teachers for International School

Chiba, Japan, Longer, Year-round Internships, Asia - East

OPPORTUNITY DETAILS

Come to Chiba and teach! Interns will serve alongside an MTW team to teach and assist staff at our K-12 international school (in English). We'll try to place you according to your interests: Subjects could include elementary education, science, math, history, etc. There are also opportunities for music ministry, sports, drama, adult English classes, and after-school activities. You'll be helping our staff make natural connections with Japanese students and parents, and

helping our school community grow together in grace and knowledge of God. There may also be opportunities to assist in church development through Bible studies, VBS programs, and serving the missionaries through various work projects.

This mentored internship runs from late August through early July, but shorter commitments may be possible. It's a great opportunity to hone ministry skills, learn about the culture, and build relationships that can lead to gospel conversations. There are no language requirements and you don't have to be an education major, but you need to be at least 19 years old. Ideal candidates are helpful, humble, and flexible.
