

## **Job Description for Church Planter in Yokosuka, Japan**

Ministry to the Military & Internationals (MM&I), a ministry of Southeast Alabama Presbytery (PCA), has designated the above location as strategic. It is home to approximately 25,000 American service personnel, Department of Defense Civilians, and contractors. Additionally there are a number of Japanese and other English speaking internationals in this city of approximately 450,000. Our military members and their families, along with internationals, warrant and deserve the presence of a Presbyterian and Reformed Church. MM&I is searching for a candidate who is fully committed to the Scriptures, the Westminster Standards and the Book of Church Order. The candidate must be faithful in proclaiming the oracles of God, in administering the sacraments as prescribed in the Bible, and be a man with a deep and dedicated prayer life. He should be diligent in his study and also passionate outside of his study in regards to meeting people and bringing the truth to bear on their lives by evangelism and discipleship. Living in a foreign country is both challenging and exhilarating. Serving the military and internationals is also challenging and exhilarating. We desire a man who is full of the Christian faith and who will exemplify that faith by imitating the great saints that have gone before us in Church history. Our service members have signed up to serve our country and die for our country if necessary. They are some of the brightest, best, and most courageous our country has to offer. Those internationals reached with the Gospel through this ministry will join all the saints that one day will gather at the coming of our Lord Jesus Christ. This ministry of MM&I is like few others. And the question is, "who will go?"
