

City Reformed PCA of Pittsburgh is seeking a person who will work in a partnership with Coalition for Christian Outreach (CCO) for student ministry at Carnegie-Mellon University. There is a wide range of flexibility in how this position could be structured; it could be combined with moving toward ordination, but does not require ordination; it could also potentially be combined with CCO ministry on a second campus, Point Park University, which has a strong emphasis on the arts. The CCO ministry on both campuses already exists and we would like to see continuity as existing ministry staff move to other positions, ideally with a start date of September 2023. The church can guarantee partial salary support but some fundraising will be expected, with training in fundraising by CCO. We are also open to a double hire of a husband and wife, as we may hire staff in women's discipleship ministry in the coming year.

City Reformed is an urban church with a membership of about 300, with four pastors and several existing partnerships for campus ministry. Contact snoke@hey.com for more information.
