

# TOP NEED

## Join a Growing Church Planting Team

Colombia, Medellin, Longer, Americas - South

### OPPORTUNITY DETAILS

The team in the Medellin and Rionegro area of Colombia is busy planting a new church and they are looking for additional teammates to join them. There are churches here, including Protestant ones, but the gospel has been widely misunderstood. Many people mix Christian beliefs with pagan practices. And many churches are preaching a prosperity gospel or are characterized by damaging, dictator-like leadership. Our team is planting a church in

this environment, faithfully proclaiming the true gospel and offering hope.

Depending on your gifts, passions, and whether you are ordained, there are lots of ways to plug in. You could help develop our college ministry or help with theological education. You could get involved in a wide variety of mercy ministries. You could even help us expand and plant new churches in the surrounding region.

If you are teachable, flexible, and have a heart to see new churches planted, we'd love to talk with you!
