

TOP NEED

Colombia Country Director

Bogota, Medellin, Colombia, Longer, Americas - South

OPPORTUNITY DETAILS

MTW currently has three teams in Colombia: One in Rionegro, near Medellín, focused on church planting; and two teams in Bogotá, one focused on RUF and the other on an international church plant. The Bogotá teams are also working together to plant a national church.

Moreover, Colombia is a country ripe for gospel expansion. We see opportunities for church planting, campus ministry,

theological education, mercy, and more. Many cities are ready to receive church planters, and many national leaders crave experienced mentors.

As we look for more opportunities to expand our ministry, we need direction and coordination. A country director would coordinate our strategy and serve as a primary liaison with national church leadership. He would identify new areas for ministry, recruit for those needs, and help equip those already placed in the field.

The candidate must be a teaching or ruling elder, experienced, and have both culture and language skills.
