

International Student Ministry Internship

Europe, Germany, Munich, 1–11 Months

Our MTW team is seeking a male pastoral intern (11 month initial commitment) to lead Munich International Community Church's ministry to international students. MICC is an ethnically diverse evangelical church in the heart of the city with a desire to reach the tens of thousands of university students from countries outside of Germany who have come to Munich to study. These international students come from every continent, some from countries and regions that are very difficult to reach with the gospel of Christ, presenting a unique and important opportunity for the advance of the kingdom.

The ideal candidate has at least a bachelor's degree, prior involvement in a campus student ministry, and

some experience living cross-culturally. Some basic organizational and leadership skills will be necessary. While some knowledge of the German language is beneficial, MICC's ministries are conducted in English, so no particular level of German is required to start.
